DISCUSSION				
Tosha Onani – International Student Graduate Admissions				<ul style="list-style-type: none">- Admissions piece (1) and the employment piece (2) 1) Admissions are needed to get the visa application started and the interview process. The timeline for the interview has increased.- Transcript evaluation also takes time.

				<ul style="list-style-type: none"> - Using a conditional or waitlist admit to receive the I20 to start the visa process. - Need to notify the international students office that they have been fully admitted. - This wait time is dependent on where the student is coming from. Sometimes it can take a year. - Conditional admittance is a great and should add a notification in the CAS system <p>2) Current UT students and employment</p> <ul style="list-style-type: none"> - To be able to be afford to be here, no scholarships so they have to work – not an option for employment in the first year. - Consider scholarship options and internships in the first year of graduate programs - <p>? will graduate programs eventually move from self-support</p> <ul style="list-style-type: none"> -more opportunities for fundraising to generate scholarships -creating awareness among graduate programs for fundraising. -develop a marketing and fundraising opportunities specific to graduate studies -schedule time with Chris and he will go from there. <p>?Can students do a year of courses virtually?</p> <ul style="list-style-type: none"> -they would be an online student would it be beneficial? -can be cost saving benefit, online education is not as prestigious, in some cases there are restrictions to when they can apply. Once the numbers go up we can have a better system in place. <ul style="list-style-type: none"> -the process can be very different, work with the international student's office individually right now, and hopefully create a more automated process -let international know when they are fully admitted.

				<p>?should we add the WES evaluators to policy.</p> <ul style="list-style-type: none"> -yes -to be able to work off campus, they have to be in an internship course (OPT) -if employment can be option can it be built into the programs
Chris Guymon - Graduate Faculty Application Clarification re: Scholarly activity				<p>-wanted to make sure there is a good understanding of the Boyer Model as an evaluative tool.</p> <p>-</p>
Peter Neibert – 3+2 Pathway in Athletic Training				<ul style="list-style-type: none"> -the feasibility of doing a 3+2 program in Athletic training. -precedence of doing these types of 3+2 including Weber State -Met with Julie and Chris to see if this was feasible. -90 credits in the first 3 years in the 4th year they would begin taking graduate credits. 30 of the credits were applying back towards the undergraduate program. -graduate with a BS in pre-exercise science and a MS in athletic training. - pre-athletic training emphasis and met with faculty to find equivalent courses -created table – will provide -nothing in policy where we can not do this. <p>? do you have a cap on your graduate course and will it stretch your faculty? Logistic issues are concerning.</p> <p>-Confirm financial issues for Veterans, financial aid and other problems.</p> <p>?credit number requirements –</p> <ul style="list-style-type: none"> - the Master's is 60 as we are a clinical degree
